Good Morning – Hope you are feeling better.

Yesterday ended with a perfect coup de gras – TWC was down until 12:30 when I really needed to just crash. So here now is the slide deck to review.

There are some comments in the file for you to review.

NOTE that this includes BACKUP slides from the Science Spotlight.

Some comments: Projects, not topics, are what is in RMS so have focused on those for tracking. Rather than “RMS” I’ve used “HHRA” because that is how they will find in RMS.

Kris’ presentation will be separate (sent in separate emails back to us around 4:30)

YES, I’ve got speakers lined up for everything. I’ll send that out once I get the final good to go from you.

Thanks. Onward!
